

RUBBER SIDEWALK DEMO KIT

Rubberway

Flexible and Permeable

Covers Up to 25 Square Feet

Tire Derived Recycled Content

The Rubberway Rubber Sidewalk Demo Kit™ is supplied to experienced contractors who are interested in learning how to install rubberized permeable paving systems. Kits are sold exclusively to contractors at a low wholesale price to assure a high profit margin.

Each Demo Kit contains proprietary polyurethane, recycled rubber granules, and colored virgin rubber EPDM to cover the installation of a small demonstration area up to 25 square feet with a 1" thickness base layer and a 1/2" top layer.

If the wear layer is to be made with multiple colors, additional materials will need to be ordered.

These freeze/thaw friendly, LEED eligible, resilient, slip resistant systems are recommended for cracked or new sidewalks, walkways, and tree well surrounds.

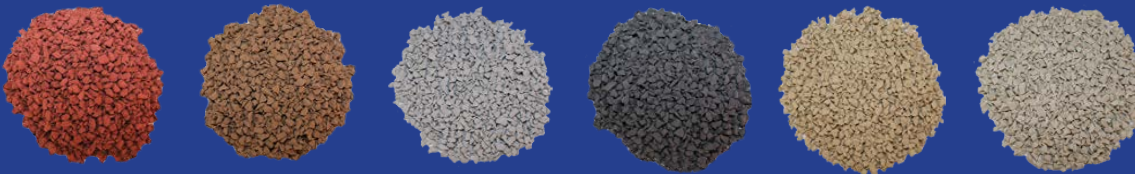

Proprietary Binders

Recycled Rubber Granules

Virgin Rubber EPDM

Installation Guide

Wholesale Supply

Color Options:

Brick Red, Cocoa Brown,
Light Gray, Dark Gray,
Tan, Beige

Our comprehensive installation guide is easy to follow step by step. Clear instructions for set up, sub-base preparations, mixture ratios, and pouring/trowelling are all included. This kit gives you all you need to start building a solid and profitable customer base in a growing market with the best product available.
